Rule 338.8104 Examinations; adoption; required components; passing score.

Rule Numbers	Commenter	Comment
338.8104	1, 3, 4	The commenters stated that the Part II Clinical Skills Patient Encounter examination requirement should be removed for 2021 and any future year where that portion of the examination is not offered.
Department's Response	Rule 338.8104 is not included in the proposed draft rules, so the requested change cannot be made as it would violate the Administrative Procedures Act. The board has already voted to open the rules once the current draft rules are promulgated with the intent to amend rule 104. The comments received will be considered by the board and the department when the rules are reopened.
