BACKGROUND AND SUMMARY OF PROPOSED RULES

Rule Set 2021-3 LR would make numerous amendments and an addition to rules pertaining to consumer standards and billing practices for electric and natural gas service. Specifically, the rule set would incorporate provisions from the Technical Standards for Electric Service and the Service Quality and Reliability Standards for Electric Distribution Systems rule sets, as the Public Service Commission feels these rules would be more appropriate within the billing rules.

FISCAL IMPACT OF PROPOSED RULES

2021-3 LR would not have a fiscal impact on the Department of Licensing and Regulatory Affairs or any other state or local government units.
