

Department of Licensing and Regulatory Affairs  
Public Service Commission  
Administrative Rules for Interconnection and Distributed Generation Standards  
Rule Set 2020-96 LR

NOTICE OF PUBLIC HEARING

Wednesday, June 22, 2022

09:00 AM

Lake Michigan Hearing Room  
7109 W. Saginaw Hwy., Lansing MI 48917

The Department of Licensing and Regulatory Affairs will hold a public hearing to receive public comments on proposed changes to the Interconnection and Distributed Generation Standards rule set.

The Interconnection and Distributed Generation Standards are rules that detail how projects owned by customers, developers, and in some situations, the utility, connect to the utility distribution system. These rules provide a standardized process and schedule so that interconnections can be accommodated in an orderly and timely manner. The rules also ensure that interconnections are done reliably and safely, in order to protect workers, utility and third-party owned equipment, and the public. The Interconnection and Distributed Generation Standards are an update to the Electric Interconnection and Net Metering Standards necessitated by advances in distributed energy resource technology and an increase in distributed generation penetration on the distribution systems in Michigan. The Interconnection and Distributed Generation Standards are promulgated pursuant to the same authority as, and replace, the Electric Interconnection and Net Metering Standards, which will be rescinded concurrently with the approval of these rules.

By authority conferred upon the Commission by section 7(6) of 1909 PA 106, MCL 460.557(6); section 5 of 1919 PA 419, MCL 460.55; sections 4, 6(1), and 10e(3) of 1939 PA 3, MCL 460.4, 460.6(1); and 460.10e(3), and section 173(1) of 2008 PA 295, MCL 460.1173(1)). Section 173(1) of 2008 PA 295, as amended by 2016 PA 342, MCL 460.1173(1), provides: "The commission shall establish a distributed generation program by order issued not later than 90 days after the effective date of the 2016 act that amended this section. The commission may promulgate rules the commission considers necessary to implement this program. Any rules adopted regarding time limits for approval of parallel operation shall recognize reliability and safety complications including those arising from equipment saturation, use of multiple technologies, and proximity to synchronous motor loads. The program shall apply to all electric utilities whose rates are regulated by the commission and alternative electric suppliers in this state."

The proposed rules will take effect immediately after filing with the Secretary of State. The proposed rules are published on the State of Michigan's website at [www.michigan.gov/ARD](http://www.michigan.gov/ARD) and in the 6/15/2022 issue of the Michigan Register. Copies of these proposed rules may also be obtained by mail or electronic mail at the following email address: [mpscedockets@michigan.gov](mailto:mpscedockets@michigan.gov).

Comments on these proposed rules may be made at the hearing, by mail, or by electronic mail at the following addresses until 6/27/2022 at 05:00PM.

Executive Secretary, Case No. U-20890, Michigan Public Service Commission, P.O. Box 30221, Lansing  
MI 48909
