NOTICE OF PUBLIC HEARING

January 9, 2023

9:00 a.m.

**Location: G. Mennen Williams Building Auditorium
525 W. Ottawa Street, Lansing, Michigan**

The hearing is held to receive public comments on the following administrative rules:

Architects – General Rules (MOAHR #2022-25 LR)

Authority: MCL 339.205 and 339.2009, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will clarify terms used in the rules set; that a certificate of completion of any NCARB internship program or proof of current and continuous licensure in another state or a province of Canada of at least five years satisfies the experience requirement for licensure; the requirements of the design and use of the seal of an architect; and the period in which a licensee must request a waiver of continuing education.

Professional Engineers – General Rules (MOAHR #2022-26 LR)

Authority: MCL 339.205 and 339.2009, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; clarify the requirement of proof of current and continuous licensure in another state or a province of Canada of at least four years to satisfy the experience requirement for licensure; clarify the ways an applicant may seek relicensure; clarify the requirements of the design and use of the seal of a professional engineer; clarify the period in which a licensee must request a waiver of continuing education; and include clarifying language for the activities that qualify for continuing education.

Professional Surveyors – General Rules (MOAHR #2022-27 LR)

Authority: MCL 339.205 and 339.2009, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; clarify the requirement of proof of current and continuous licensure in another state or a province of Canada of at least four years to satisfy the experience requirement for licensure; clarify the requirements of the design and use of the seal of a professional surveyor;

and clarify the period in which a licensee must request a waiver of continuing education.

Psychology - General Rules (MOAHR #2022-14 LR)

Authority: MCL 333.16145, 333.16148, 333.18201, 333.18223, and 333.18233, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; supply updates to the latest educational standards; supply information about postdoctoral internship requirements; clarify the requirements for requesting an alternative supervision arrangement for postdoctoral experience; clarify that an applicant for relicensure must successfully pass the examination required during the 2 years immediately preceding the date of the application as a pathway for relicensure; clarify the requirements for requesting an alternative supervision arrangement for limited licensed psychologists; clarify the examination and needed passing score for licensure for limited licensed psychologists; clarify the requirements for requesting an alternative supervision arrangement for temporary limited licensees; clarify the period in which a licensee must request a waiver of continuing education; supply updated ways to obtain continuing education credit; and clarify that a proposed continuing education provider not already approved must file the application and supporting documentation with the department for review not less than one-hundred twenty (120) days before the scheduled program date.

The rules will take effect immediately upon filing with the Secretary of State, unless specified otherwise in the rules. Comments on the proposed rules may be presented in person at the public hearing. Written comments will also be accepted from date of publication until **5:00 p.m. on January 9, 2023**, at the following address or e-mail address:

Speakers chosen for NMU commencement ceremony

From Northern Michigan University
MARQUETTE — For the first time in Northern Michigan University history, the student commencement speaker will be an NMU Global Campus graduate.

Jeff Ferrington has completed a bachelor's in applied workplace leadership entirely online from his home base in downstate Macomb Township, but delivered his speech in person.

NMU's commencement is at 10:30 a.m. Dec. 17, in the NMU Superior Dome. It will be broadcast live on WNMU-TV 13 and streamed online at nmu.edu/commencement.

Ferrington calls himself a "second chancer" for getting the opportunity to finish the NMU degree he first started as an on-campus student in 1996.

It took some convincing on his part to receive a second try. Ferrington readily admits that his introduction to Northern back then did not end well. While he loved the Marquette area and collegiate atmosphere, and immersed himself in activities such as hall government and other student organizations, he said, "I was not as focused as I should have been academically, and I was not welcomed back."

Ferrington returned to lower Michigan after his third year and entered the workforce. He started work in sales and marketing, then he got into the audio-visual field. For the past 15 years, he has worked within the sports, medical and higher education industries to design spaces where people can incorporate interactive technology into their workflow.

"I reached out to NMU's Global Campus because when I turned 40, I started looking at regrets I had in my life that I could correct," he said in a news release. "Not having a degree from Northern sat at the top of that list. I didn't know if it

would do anything for professional advancement, and I still don't. It's totally selfish in that I simply needed to fill that void for my own personal journey. I wrote a letter on the steps I had taken, why I wanted to finish my degree and the connection I had to Northern. The people at Global Campus took a chance on me. I think it's paid off, as it's been a great journey. I've even made the Dean's List."

When graduating NMU students received an email describing the application process for commencement speaker, Ferrington's first reaction was that it would be an amazing way to cap his experience. Then doubt intervened. He questioned whether the selection committee would seriously consider an off-campus, distance education student. With his wife's encouragement and support from advocates on campus who wrote recommendation letters, he applied.

"I wanted to write a speech in a way that anyone listening would be able to connect to a piece of it because we've all faced challenges," Ferrington said. "But I didn't want another COVID speech, because that's been done and perseverance goes beyond the pandemic. I really believe that gratitude is an essential part of life and wanted that message reflected as well."

Ferrington will be accompanied to campus by several family members: his wife of 13 years, Leslie; their two daughters: Lily, 11, and Emmy, 7; his parents, Bill and Elaine; and his in-laws, Doug and Sandy Sova.

Lafferty faculty keynote speaker

Diana Lafferty, assistant professor of wildlife ecology, will be the faculty keynote speaker at the commencement ceremony. She was selected through a nomination process overseen by the Associated Students of

At top, Diana Lafferty, assistant professor of wildlife ecology, will be the faculty keynote speaker during Saturday's commencement ceremony at Northern Michigan University. Lafferty was the 2021-22 recipient of NMU's Excellence in Teaching Award. Above, Jeff Ferrington will be the student commencement speaker, Ferrington is an NMU Global Campus graduate. (Photos courtesy of NMU)

Northern Michigan University, the student government organization.

"I'm shocked and incredibly humbled that the students selected me as their commencement speaker this semester," Lafferty said in a news release. "It's such a wonderful privilege to celebrate their graduation with them in such a meaningful way."

Lafferty was the 2021-22 recipient of NMU's Excellence in Teaching Award, which recognizes faculty who have outstanding peer and student evaluations, are dedicated and enthusiastic, create safe and open learning environments, and experiment with innovative teaching and learning paradigms.

As a broadly trained interdisciplinary conservation ecologist, Lafferty synergizes her research, mentoring, teaching and outreach activities to advance under-

standing of how wildlife populations — and their associated communities and ecosystems — respond to global change. She leads students in hypothesis-driven research at the nexus of basic and applied ecology using a variety of taxonomic models that span myriad landscapes, both in her classrooms and lab.

By integrating authentic research into her curriculum, Lafferty trains NMU students to conduct ecological and conservation-focused research. She also fosters cross-institutional student collaborations and provides unique opportunities for all her students to engage in professional development activities.

"One of the most rewarding aspects of teaching is that I get to be the students' No. 1 cheerleader," she said. "I really love playing a small part in helping stu-

dents identify their academic and professional goals and creating a scaffolded framework to ensure they can achieve their goals in a timely manner."

Since joining the faculty at NMU in the fall of 2017, Lafferty's efforts have enabled more than 450 undergraduate students in her Principles of Ecology and Conservation Biology courses to present their class research projects at local and national symposia.

She and student researchers also contributed to Snapshot USA, the first coordinated nationwide mammal survey that consisted of 1,509 motion-activated camera traps from 110 sites across all 50 states. The data was published in the journal Ecology, and Lafferty and students have collaborated on other published articles based on related research using Snapshot USA data.

Thompson to receive honorary nursing degree

Higher education and public policy leader Linda Thompson will receive an honorary doctorate degree in nursing at commencement. She has served as president of Westfield State University in Massachusetts since July 2021.

In a previous capacity as dean of nursing at Oakland University, Thompson played an instrumental role in facilitating the creation of NMU's Doctor of Nursing Practice program.

"The nursing profession was moving its practice degree to a DNP, but there were few programs at that time in the U.S. and none in Michigan," said Kerri Schuiling, former director and associate dean of Nursing at NMU and current president, in a news release. "Linda is an amazing visionary and requested that Oakland's director of grad programs develop a DNP curriculum. Our conundrum at Northern was how to support current faculty with

master's degrees in obtaining a doctoral degree. Linda suggested our schools work together.

"We were able to use faculty experts from each school to teach content areas in the program; we did not have to hire new faculty. We also created student exchanges so that students from the Upper Peninsula would have opportunities for clinical experiences in urban Detroit, and students at Oakland had clinical experiences in the rural U.P. The state awarded us a \$1.9 million grant to create a DNP. Linda's willingness to share the curriculum and her vision for a collaborative with faculty reciprocity saved money and time, and enabled a number of NMU nursing faculty to earn a doctoral degree."

Prior to joining the Westfield State community, Thompson served as dean of the College of Nursing and Health Sciences at University of Massachusetts Boston.

Thompson has taught nursing and public health throughout her career at 10 different colleges and universities. She has received numerous awards, was an invited participant in the White House Conference on Childcare, and has served on numerous boards and commissions. Thompson earned her bachelor of science and master of science degrees in nursing at Wayne State University, and holds master's and doctoral degrees in public health from Johns Hopkins University.

"I am very grateful to Northern Michigan University and President Schuiling for selecting me to receive an honorary doctorate degree in nursing," Thompson said in a news release. "As I have spent most of my life working in education and public health, this recognition is personally significant. I look forward to working with NMU to achieve our shared goals."

Grant from IA

per Peninsula outdoor experience while nurturing outdoor entrepreneurs and fostering collaboration with state's full suite of design, innovation and production expertise," said Brad Garmon, executive director of the Michigan Outdoor Recreation Industry Office. "This is a critical investment

in a program and a place that Michigan needs in order to grab the attention of the national outdoor recreation industry and grow opportunities for the entire state."

Hoponassu OZ, LLC owner Ollila will lead the development team. Project advisers include the Outdoor Recreation Industry Office, InvestUP, Michigan Technological University, the city of Marquette, MI-

CHauto, 100k Ideas and private consultant Michael Browne.

"By aligning its natural resources and assets with this economic moment, Michigan has a chance to lead the nation and establish the U.P. and Michigan as the center of excellence in outdoor recreation and mobility innovation," Ollila said. "This is an opportunity to drive stronger connec-

tions between our peninsulas and provide the U.P. an asset that contributes to our collective economy in a way we have not done since Ford was operating plants in the U.P."

Ollila first Entrepreneur in Residence

Innovate Marquette SmartZone in November announced the launch of its

Entrepreneur in Residence program as well as its inaugural resident, Ollila.

An Entrepreneur in Residence program, it noted, is typical of business accelerators around the globe and this asset for entrepreneurs is now available in Marquette. Residents in the program are seasoned veterans in their area of expertise and act as a mentor and specialist to their host organization

and its accelerator clients.

Innovate Marquette is focused on the incubation and acceleration of business ideas in three key sectors:

- outdoor innovation: mobility and accessibility in recreation;
- sustainable technologies; and
- creative technologies.

Ollila's role will focus on the outdoor innovation sector.

Work from IA

constantly adding gravel to deal with the drop-off at the pavement edge caused by erosion," DeGrand said. "The wider shoulders eliminate the drop-off and result in less worker exposure to traffic dangers."

New traffic detection camera systems have been added at busy intersections in Marquette, Delta and Houghton counties. These cameras help smooth the flow of traffic. Based on the vehicles detected in the intersection, the sensors can adjust traffic light timing. The cameras don't store or record footage, MDOT said.

Technically, the new cameras aren't safety devices, but by improving vehicle detection they can ultimately boost safety. These detectors will function better in winter than traditional sensors embedded in the roadway, which can be covered by snow, reducing their effectiveness.

"These projects will create more reliable vehicle detection, which improves the operational efficiency of the intersections," DeGrand said. "That results in fewer back-ups and potentially decreases crashes."

The upgraded traffic signals will also allow MDOT electricians to maintain the equipment remotely or from the roadsides cabinet, without having to enter the roadway.

The statewide TZD safety campaign parallels a national strategy on highway safety. While travel dropped nationally during 2020 with the onset of the pandemic, traffic crash deaths increased that year, MDOT said. Preliminary numbers show fatal crashes increased again

in Michigan in 2021, up by about 10%, mirroring the disturbing national trend. Fortunately, the trend appears to be reversing slightly this year.

In Michigan, as of Dec. 6, unofficial data showed 1,017 people had died on roadways in 2022, a decrease of 50 compared with the same time in 2021. In addition, 5,304 people were seriously injured, down 75 from the same period a year ago.

Through Sept. 18, unofficial statistics showed 16 people had died on roads in the U.P. this year, with 150 seriously injured. That's 15 fewer fatalities and 31 fewer serious injuries than at the same time in 2021.

"MDOT is doing its part in the TZD effort by continuing to invest infrastructure funding into projects that improve the safety of the roadway network," Junttila said. "The strategy is to address crashes systemically, including at spot locations where a crash pattern has been identified, as funding allows."

Next year, among other safety initiatives, MDOT plans to install a roundabout at the U.S./Lakeshore Drive intersection in Ishpeming and build several indirect left turns, or "Michigan Lefts," on U.S. 41 between Marquette and Negaunee, which are designed to mitigate angle and rear-end crashes.

Other projects will widen shoulders on M-183 and add more roadside reflective delineators on M-28 to complete work on that corridor.

To learn more about the national strategy, go to www.towardzerodeaths.org. For more information on the state campaign, visit MDOT's website at www.Michigan.gov/ZeroDeaths.

Department of Licensing and Regulatory Affairs Bureau of Professional Licensing

NOTICE OF PUBLIC HEARING

January 9, 2023

9:00 a.m.

Location: G. Mennen Williams Building Auditorium
525 W. Ottawa Street, Lansing, Michigan

The hearing is held to receive public comments on the following administrative rules:

Architects – General Rules (MOAHR #2022-25 LR)

Authority: MCL 339.205 and 339.209, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will clarify: terms used in the rules set; that a certificate of completion of any NCARB internship program or proof of current and continuous licensure in another state or a province of Canada of at least five years satisfies the experience requirement for licensure; the requirements of the design and use of the seal of an architect; and the period in which a licensee must request a waiver of continuing education.

Professional Engineers – General Rules (MOAHR #2022-26 LR)

Authority: MCL 339.205 and 339.209, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; clarify the requirement of proof of current and continuous licensure in another state or a province of Canada of at least four years to satisfy the experience requirement for licensure; clarify the ways an applicant may seek licensure; clarify the requirements of the design and use of the seal of a professional engineer; clarify the period in which a licensee must request a waiver of continuing education; and include clarifying language for the activities that qualify for continuing education.

Professional Surveyors – General Rules (MOAHR #2022-27 LR)

Authority: MCL 339.205 and 339.209, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; clarify the requirement of proof of current and continuous licensure in another state or a province of Canada of at least four years to satisfy the experience requirement for licensure; clarify the requirements of the design and use of the seal of a professional surveyor; and clarify the period in which a licensee must request a waiver of continuing education.

Psychology – General Rules (MOAHR #2022-14 LR)

Authority: MCL 333.16145, 333.16148, 333.18201, 333.18223, and 333.18233, and Executive Reorganization Nos. 1991-9, 1996-2, 2003-1, and 2011-4, MCL 338.3501, 445.2001, 445.2011, and 445.2030.

Overview: The proposed rules will: clarify terms used in the rule set; supply updates to the latest educational standards; supply information about postdoctoral internship requirements; clarify the requirements for requesting an alternative supervision arrangement for postdoctoral experience; clarify that

an applicant for licensure must successfully pass the examination required during the 2 years immediately preceding the date of the application as a pathway for licensure; clarify the requirements for requesting an alternative supervision arrangement for limited licensed psychologists; clarify the examination and needed passing score for licensure for limited licensed psychologists; clarify the requirements for requesting an alternative supervision arrangement for temporary limited licenses; clarify the period in which a licensee must request a waiver of continuing education; supply updated ways to obtain continuing education credit; and clarify that a proposed continuing education provider not already approved must file the application and supporting documentation with the department for review not less than one-hundred twenty (120) days before the scheduled program date.

The rules will take effect immediately upon filing with the Secretary of State, unless specified otherwise in the rules. Comments on the proposed rules may be presented in person at the public hearing. Written comments will also be accepted from date of publication until 5:00 p.m. on January 9, 2023, at the following address or e-mail address:

Department of Licensing and Regulatory Affairs
Bureau of Professional Licensing—Boards and Committees Section
P.O. Box 30670
Lansing, MI 48909-8170
Attention: Departmental Specialist Email: BPL-BoardSupport@michigan.gov

A copy of the proposed rules may be obtained by contacting Board Support at (517) 241-7500 or the email address noted above. Electronic copies also may be obtained at the following link:

Architects – General Rules

To allow for broad public attendance and participation, including for persons with disabilities, members of the public may access this meeting by both web and phone and provide either oral or written comments. Closed captioning will be provided, when available. Members of the public who are speech or hearing impaired may also attend and participate in this meeting by dialing 7-1-1 and using the Michigan Relay service. More information about this service may be found at https://www.michigan.gov/mpsc/0,9535,7-395-93308_93325_93425_94040_94041--00.html.

People with disabilities requiring additional accommodations (such as materials in alternative format) to participate in the meeting, or those that have questions should contact the department at BPL-BoardSupport@michigan.gov.

Please call (517) 241-7500 or email BPL-BoardSupport@michigan.gov with any questions related to the hearing.
